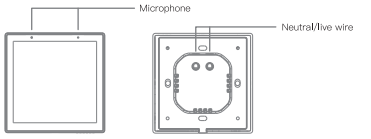
4. Please confirm the cassette's mounting hole distance with in 60±0.5mm, and the depth is over 40mm.
5. Do not operate with electricity.

Interface Description



Safety instructions ⚠

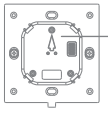
To ensure the correct usage of this product, this product must be installed or disassembled by a professional electrician.
The main power switch must be cut off before installing or disassem-bling this product to prevent electric shock.
This product needs to be kept away from fire and water sources during installation and use.
This product cannot be used in humid environments (such as bathrooms).
Currently, the device does not support PoE power supply, thus pleasedo not plug the PoE network cable into the network port to avoid burnout of the device.

Installation instructions

- Turn off the circuit breaker and use the electrical tester to test the power.
- Ensure the circuit breaker is off before wiring.

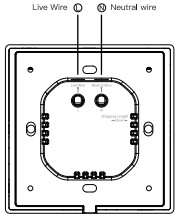
⚠ Attention:
Please disconnect the power supply before installing or removing the device for avoiding irreversible damage on the device from the electric current or some unpredictable problems.

- Remove the panel (as shown below):



Install upwards with the direction indicated by the arrow

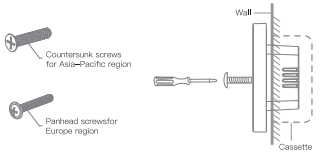
Wiring instructions



- Please connect according to the physical identification on the product

L: Live wire input
N: Neutral wire input
Stripping length 10mm

- Check the wiring to make sure that the copper wire is in good contact with the terminal and there is no exposed wire.
- Use the correct type of screws, countersunk screws for Asia-Pacific region, panhead screws for Europe region, to fix the base to the cassette, and then buckle back the panel.
- Please note that the screws should not be tightened too tightly during the installation process to avoid deformation or damage to the screen or hardware.
- If you encounter any problem with the installation, do not press too hard to force the installation. You should level the wall first and check the bracket.



Download the MOES APP

① Download MOES App on App store or scan the QR code

GET IT ON Google play
Download on the App Store

MOES App is upgraded as much more compatibility than Tuya Smart/Smart Life App, functional well for scene controlled by Siri, widget and scene recommendations as the fully new customized service.
(Note: Tuya Smart/Smart Life App still works, but MOES App is highly recommended)

② Registration or Log in.
• Download "MOES" Application.
• Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

Add Device

1. Turn on the power, and wait for the device to initiate. Connect to the network according to the instructions on the screen.
2. Open the MOES App, then scan the QR code on the device to configure the network (as shown in the figure below), and perform related operations according to the instructions on the device interface after the commission is successfully finished.

*The QR code is based on the display of actual device

- Device/scene overview: enter the corresponding entry in the smart control panel page of the MOES App, tick the devices or scenes that need to be displayed on the screen.
- Voice control: enter the corresponding entrance in the smart control panel page of the MOES App to configure the vocal scene.
- Gateway function: enter the corresponding entrance in the smart control panel page of the MOES App, then add Zigbee devices.

- Setting: slide down at the top of the Smart Control Panel screen to call out the setting page.

Classll quipment.Equipment in which protection against electric shock does not rely on basic insulation only, but in which a supplementary safeguard is provided, there being no provision for protective earthing or reliance upon installation conditions.

~ a.c. Nature of the supply voltage.

Declaration of Conformity European notice

CE Hereby, Wenzhou Morning Electronics Co., Ltd. declares that this product is in compliance with essential requirements and other relevant provisions of Directive 2014/53/EU,2011/65/EU. Hangzhou Tuya Information Technology Co., Ltd. A copy of the Declaration of comformity can be found at https://moessmart.com.

This product must not be disposed of as normal household waste, in accordance with EU directive for waste electrical and electronic equipment (WEEE-2012/19/EU). Instead ,it should be disposed of by returning it to the point of sale, or to a municipal recycling collection point. The device could be used with a separation distance of 20cm to the human body.
