Specification

Product Name: Smart Plug
Working Voltage: AC100V-240V 50/60Hz
Max.Current: 16A
Protocol: ZigBee
Working Temperature: -10-65°C
Support system: Android / iOS

Preparation for use

1.APP Download MOES APP

MOES APP is upgraded as much more compatibility than Tuya Smart/Smart Life APP,functional well for scene controlled by Siri,widget and scene recommendations as the fully new customized service.(Note:Tuya Smart/Smart Life APP still works,but MOES APP is highly recommended)

2.Register or Login

Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

Steps for connecting the APP to the device

Method One: Scan the QR code to configure the network guide.

1. Make sure your MOES APP has successfully connected to a ZigBee gateway.

Method Two:

1. Make sure your MOES APP has successfully connected to a ZigBee gateway.

2. Long press the device button for more than 5s to enter the network configuration mode.

On/off Button

3. Enter the gateway.Please follow the picture below to finish as "Add subdevice→LED already blink"and the configuration would take about 10-120s,which is up to the network condition.

4. Add the device successfully, you can edit the name of the device to enter the device page by click "Done".

5. Click "Done" to enter the device page to enjoy your smart life with home automation.

Enter MOES Skill in Alexa APP

1.Complete product networking configuration in the App

Complete the device's networking configuration according to the prompts in the App. Note: In the App, change the name of the device to an easily identifiable name such as Alexa; names are usually in English, such as "bed light".

2.Configure the Amazon Echo device

(If you have already configured Amazon Echo, you can skip this step. The following instructions are based on the iOS client.)

- Make sure you Amazon Echo device is powered on and connected to a Wi-Fi network.
- Open the Alexa APP on your phone and log in.

- Tap on the menu in the upper left corner of the Home page, select "Settings" and tap "Set Up A New Device" to set up the Amazon Echo.
- Choose your Amazon Echo device type and language for connecting.
- Press and hold the small dot on the device until the light turns yellow.
- Click "Continue" to connect to the hotspot, connect to the Amazon Echo hotspot, and return to the APP page.
- Click "Continue" to find and connect to your home Wi-Fi network.
- Amazon Echo will take a few minutes to try to connect to the network.
- After the network connection is successful, tap "Continue". An introduction video will appear. After the video ends, tap "Continue" to jump to the Alexa Home page.
- You have now completed the Amazon Echo's configuration process.

3.Key step —— Link Skill

- Tap on "Skills" in the Alexa App menu.
- Then search for "App Name". Tap "Enable" to enable the Skill.
- Enter the App account and password, then tap "Link Now" to link your App account to enable the Skill. Now you can start your smart home journey.

4.Common commands

Control the device via voice commands, now you can control your smart device with Echo. You can control your device (such as your bedroom light) with the following commands:

- Alexa, turn on [device name]
- Alexa, turn off [device name]
